SUMMER CAMP DESCRIPTIONS

HS: High School Camp

MS: Middle School Camp

Alaska Youth Academy

Introduction to Public Safety/
Law Enforcement Careers .5 credit

Alaska Youth Academy program encourages youth to make positive life-choices that prepare them to enter the workforce in Public Safety and related fields. Students will be working closely with Alaska State Troopers, Village Public Safety Officers, US Deputy Marshals and other public safety figures. AYA students learn hands-on lessons in a wide variety of topics such as wilderness survival, CPR, First Aid, Fire Safety, Crime Scene Investigation, Defensive Tactics and responsible decision making.

Allied Health - HS

Becoming a Healthcare Professional 1 credit

Emergency Trauma Technician:
First Responder 1 credit

Standard First Aid and CPR .6 CEU

This camp is for high school students who will be entering 9th-12th grades in the fall of 2013. Students who are interested in learning more about a healthcare career will enjoy this exciting two weeks. This camp offers a college environment (students will stay in college dorms) and an introduction to a variety of health related professions including: Behavioral Health, Public Health, Medical Office, Nursing and many others. Students will take part in a hands-on training for Emergency Trauma Technician: First Responder Certification. Students will also earn their First Aid and CPR certifications through a standard 8-hour class. Students will also have the opportunity to become Junior Public Health Educators and participate in educating their peers about health

related issues they are passionate about. It's not all work, we play too! Campers will participate in a three day softball tournament as well as participate in many other activities such as disc golf and bonfires on the beach.

Allied Health - MS

This one week camp is designed for middle school students entering 6th-8th grades in the fall of 2014, who are interested in further developing healthy lifestyles. Students will stay in the Iḷisaḡvik College dorms for the duration of the camp. Activities and topics will include: career exploration, identity development, nutrition, exercise, healthy relationships, teen coping skills, and cultural attunement along with many others. The relationship between goal setting and positive decisions will be stressed along with developing healthy habits. Evening activities will include movie nights, disc golf (along with other games), and arts & crafts projects.

For more information on all Allied Health Camps, contact the Allied Health Program at 852.1803. Students will be considered after review and a formal application process.

Design and Build

Design and Build 2 credits

Learn the basics of sustainable architecture within the arctic by engaging as a team in the design and building of a small pavilion or architectural installation. Design techniques will include hand drawing, model building, and computer drafting/modeling with available software. Learn carpentry and teamwork skills while documenting the construction process. Showcase the installation and display your design work from the first week.

Earth Science - 'Nuna Il'

This camp, offers an introduction to the world of Earth Sciences. Topics will include geology, geomorphology, climate change, glaciers, and permafrost and field measurements. The instructor is a University of Alaska Fairbanks field scientist with experience in working on glaciers in the mountains, in the Arctic and in the Antarctic as well as on the tundra of Barrow. Students will learn about the Earth, engage in discussions and

take part in short field-trips on the tundra and on the beach to undertake sampling, experiments and measurements of water and permafrost. Students will also take part in team, individual and strength challenges to promote a healthy lifestyle.

Eider Journey

Eider Journey Science Internship 2 credits

This is an education and stewardship program run by the US Fish and Wildlife Service addressing conservation and management issues of the threatened North American breeding population of Steller's eider ducks. Through classroom activities, fieldwork with biologists and follow-up activities, students develop an increased understanding of the needs of this species and the threats it faces. As a result of this experience, students are more likely to become informed decision-makers and stewards of our natural resources. This course is especially designed for those with an interest in wildlife and resource management practices.

For more information/registration, contact **Neesha Stellrecht at 907.456.0297 or neesha_stellrecht@fws.gov**. Limited entry. Open to all North Slope high school students who have a 2.0 GPA at the time of the application. *Village students wishing to participate will need to locate their own housing in Barrow. Students must fill out a Fish and Wildlife application as well as register for the course through Iḷisaḡvik College.

Future Teachers for the Arctic - HS

Becoming a Teacher 1 credit

This camp will expose high school students to the field of education with the short-term goal of familiarizing the students with the new Iñupiaq Early Learning Associate of Arts degree and the long-term goal of producing local certified teachers. This camp offers an introduction to a variety of education professions including: Elementary Teacher, Iñupiaq Language Teacher, Child Care Provider and Educational Paraprofessional. During the camp, students will tour educational facilities, take part in hands-on training and speak with various education professionals on the school district and college level. Students will participate in challenges, discussions, lessons, and activities that engage students while highlighting education as a career

Future Teachers for the Arctic - MS

This camp will expose middle school students to the field of education with the short-term goal of familiarizing the students with the new Inupiaq Early Learning Associate of Arts degree and the long-term goal of producing local certified teachers. This camp offers an introduction to a variety of education professions including: Elementary Teacher, Inupiaq Language Teacher, Child Care Provider and Educational Paraprofessional. During the camp, students will tour educational facilities, take part in hands-on training and speak with various education professionals on the school district and college level. Students will participate in challenges, discussions, lessons, and activities that engage students while highlighting education as a career.

Inupiaq Land Use Values and Resources

Inupiaq Land Use Values and Resources 3 credits

An overview of the core elements of the Inupiaq worldview of their geography and ecosystem. Examination of the complex relationships of people with the land, ocean and natural resources will be an integral part of the course. Culturally proper behaviors in the treatment of the land and resources will be discussed including North Slope geography landmarks, Traditional Land Use Inventory, camps, hunting areas,

animals of the area, place names, plants of the area, historic use, flora and fauna, hunting and subsistence. Demonstrations of appropriate uses of animals and other resources will be incorporated.

STEM (Science, Technology, Engineering and Math) Camp

STEM Career Investigations

1 credit

Participants in this program will tour science research facilities, speak with visiting scientists and local wildlife biologists, and assist with field work. Learn methods and techniques used in scientific studies. Students will build proposals using research conducted in their home village. Successful students have the option to submit a report on the results of their study, present their work at a conference, and possibly travel to other research facilities!

Welding Camp

Welding Safety and SMAW

1 credit

Welding Safety and Oxy-Fuel Cutting

1 credit

Students will be introduced to welding processes and career possibilities. Learn Oxy-Fuel cutting and Shield Metal Arc Welding (SMAW). Participate in lectures and labs. Hands-on application of the knowledge you've obtained in class.

DID YOU KNOW?

Ilisagvik College is a SMART way to
start your college journey.

Take your first two years of college at home! Credits transfer, you save money, and your experience here will help you prepare for the transition to a four-year university.

We Offer Certificates and AA Degrees in:

ACCOUNTING

ALLIED HEALTH

ASSOCIATED CONSTRUCTION TRADES

BUSINESS MANAGEMENT

CDL/HEAVY EQUIPMENT OPERATIONS

EDUCATION

EMERGENCY SERVICES

INDUSTRIAL SAFETY

INFORMATION TECHNOLOGY

IÑUPIAQ STUDIES

LIBERAL ARTS (GENERAL TRANSFER)

OFFICE ADMINISTRATION
