

SPRING 2013

Course Schedule

ILISAGVIK
COLLEGE

SPRING 2013

Spring Semester 2013

Registration for the spring 2013 semester begins	Monday, November 26
Deadline for most financial aid applications	Saturday, December 1
Deadline for applications for admission for spring semester	Friday, December 14
Residence center opens	Sunday, January 6
First day of instruction	Wednesday, January 9
Last day to add semester-long classes	Friday, January 18
Holiday – Martin Luther King Day	Monday, January 21
Deadline for student-initiated and faculty-initiated drops	Friday, January 25
Holiday – Presidents' Day	Monday, February 18
Deadline for student initiated withdrawals	Friday, March 1
Student progress reports due	Friday, March 8
Applications for graduation should be submitted	Friday, March 8
Deadline for faculty initiated withdrawals	Friday, March 8
Holiday – Seward's Day	Monday, March 25
Graduating students' preliminary grades to Registrar	Monday, April 8
Last day of instruction	Wednesday, April 24
Commencement	Friday, April 26
Residence center closes	Saturday, April 27
Deadline for faculty to post grades	Monday, April 29

Summer Semester 2013

Registration for the summer 2013 semester begins	Monday, April 1
First day of instruction	Monday, April 29
Deadline for most financial aid applications	Wednesday, May 1
Holiday – Memorial Day	Monday, May 27
Holiday – Founder's Day	Monday, July 2
Holiday – Independence Day	Wednesday, July 4
Last day of instruction	Friday, August 16

REGISTRATION DATES:

November 30, 2012

Dr. Albert Room

3:00pm – 7:00 pm

January 7, 2013

Dr. Albert Room

3:00pm – 7:00 pm

NEW COURSES

To view course descriptions for existing courses, please see the Academic Catalog.

ANS 293 Leadership in a Diverse World

This course will examine the concept of leadership in both the Indigenous and Western perspective. Students will explore what occurs when Indigenous and Western styles are integrated as well as what leadership looks like holistically, from the past to the present and into the future.

ANTH 294 Fundamentals of Archaeology:

Archaeology is the study of past human behavior through physical traces it left behind. This course introduces you to the methods archaeologists use to make sense of the past. It covers how sites are found and excavated, and how the finds are studied. It also covers ethics of archaeology.

ANTH 294 Archeology Laboratory Methods

This course introduces students to the basic methods and techniques used to analyze archaeological materials. Students will acquire familiarity with North Slope artifact types, raw materials and manufacturing techniques. They will learn skills needed to participate in archaeological projects and work as entry-level archaeological lab technicians. There is a separate hands-on laboratory module which can be taken concurrently.

ANTH 294 Archeology Laboratory Methods, Lab

This is the laboratory component of the Archaeological Lab Methods course, and can be taken concurrently. The lab gives students a hands-on introduction to the basic methods and techniques used to analyze archaeological materials. Students will get hands-on experience with North Slope artifact types and raw materials. They will learn and practice skills needed to participate in archaeological projects and work as entry-level archaeological lab technicians.

ED 101 Introduction to Early Childhood Profession

This course includes a historical foundation on current issues and trends surrounding early childhood and provides exposure to a variety of developmentally appropriate programs designed to meet the diverse needs of children and families. Topics include the importance of being an advocate, supporting Indigenous children's development, creating an inclusive environment, professionalism and ethical conduct, identification of resources such as the National Association for the Education of Young Children (NAEYC), and the exploration of career opportunities.

ED 104 Child Development

This course provides a foundation designed to increase knowledge and understanding of child development from prenatal to age three. Anticipating the emerging development during the rapid growth of these critical years will be emphasized. Students will examine domains, theories, cultural perspectives and multiple influences on development, with an emphasis on prenatal development, healthy childbirth, the importance of relationships, and meaningful environments. Opportunities for observation, reflection, and early intervention in a preschool setting will be provided.

PHYS 194 Physics I

This algebra-based physics course is designed for students who are pursuing a career in health related fields, life science, or other disciplines including architecture and environmental science. This first course deals with Newtonian and fluids mechanics, thermodynamics, wave motion and sound. *Prerequisite: Math 105 or higher (Knowledge of Geometry and Trigonometry will be helpful).*

KEY TO COURSE AVAILABILITY

Teleconference: Students residing in Barrow attend class sessions in person. Students not in Barrow, can participate at the given time from any location by dialing the teleconference number provided.

Teleconf/c-Live: Students residing in Barrow, attend class sessions in person. Students not in Barrow can participate at the given time from any location by dialing the teleconference number provided. Additionally, they need a computer with Internet access in close proximity, in order to view the visual components, such as class notes and other instructional materials.

Online/c-Live: Students participate (1) in scheduled class sessions using a computer with internet access and (2) online, at their own convenience.

Online: Students participate at their own convenience, using a computer with internet access.

A BLENDED course will have scheduled class sessions as well as required online interaction.

Please note: The following schedule is subject to change. The Registrar's Office has the most current version available. Call 907.852.1757.

WHY COLLEGE?

1. A college education helps secure your future.

The number of **employment opportunities rise** and statistics reveal that **most leaders are college grads.**

2. If you have a college education, data reports indicate, you will make more money, which in turn will enable you to **have a better everyday life.**

3. A college education shapes your communication skills, expands your knowledge base, makes you methodical and organized, and **exposes you to a whole new world of learning.**

4. **Lifelong friendships are made in college.**

The people you meet and the times you have with them in college you can't get anywhere else. You will never forget the people that you share a dorm with, meals with and have fun with.

5. **College can help you qualify in fields you are interested in.**

6. **Education opens the doors to many things** like multiple jobs, career choices, the chance to further education at any point in life, and the option of teaching others what you have learned.

7. **College education is an investment in you** that yields much more than Wall Street investments.

8. **College-educated people will ensure the continuing success of the "American Dream."**

WHY A COMMUNITY COLLEGE?

- **Save money on tuition**
- **Complete your basic requirements**
- **Time to define your major**
- **An opportunity to boost your gpa**
- **Save money by living at home**
